## Experience

September 2022 — November 2023

### Zitelia soluciones tecnológicas, S.L.L.

#### Administrative Module Development for Lifeguard Management Software

**Key Actions:** Building the business logic and user interface with CodeIgniter 4 and Porto template, programming CRUD systems for operational management, and configuring roster assignment and management systems.

**Outcome:** Established a robust administrative foundation for the software, pivotal for the future integration with web and mobile applications.

#### Web app for Document and Report Template Management Software

**Key Actions:** Development of new field types for dynamic forms, including images, signatures, checks and descriptions, integration and dynamic rendering in user interface and PDF documents.

**Outcome:** Increased flexibility and functionality of the document composition system, allowing for the creation of more complex and dynamic documents.

#### Reservation Web app for Sports Center Management Software

**Key Actions:** Interface Modernization, Bootstrap Update, Fullcalendar Implementation, Improvements in the Booking System and Redsys Integration.

**Outcome:** Improved user experience, new functionalities and improved booking system.

#### Website for Sports Center Management Software

**Key Actions:** Update of HTML template and Bootstrap 5, redesign of course presentation using AJAX and cards, improvement of search and filtering systems, modernization of the weather plugin, and creation of a QR image webservice.

**Outcome:** Comprehensive transformation of the website, achieving a modern, functional, and accessible interface with significant improvements in information presentation and user interaction.
